

What is velocity?	
What must you know in order to determine velocity?	
Name three profession that rely on knowing velocity:	1. 2. 3.
What is a way of showing motion?	
Define slope	
How can you calculate slope?	
What is rise?	
What is run?	
The rise on a graph is 600 m and the run is 3 minutes. What is the slope?	

Graph it! Make at least 3 points
Make sure to label X and Y axes

Refer back to Bob's data.
Graph his 5k
